## DESCRIPTION

This mailing list is an audience of individuals who are interested in preventing the consequences of a weak immune system. They are willing to pay every month for protection against an array of ailments, ranging from quite serious to common and non-threatening. IMMUTOL is taken by people who have cancer, viral syndromes, (chronic fatigue, Epstein Barr, herpes, HIV), parasitic and bacterial infections, or less serious problems such as colds, flu, and allergies. Some take it in response to an ailment, while others take it as a preventative measure.

IMMUTOL is available without a prescription, but it has been clinically tested, and recommended by physicians, for strengthening the immune system. All these individuals have paid \$59.95 for the first months supply, and \$41.97 for subsequent months.

Target this audience with offers for health/vitamins, anti-aging, potency, insurance, travel, credit cards and more.
